Project Description.

In this project we will be serving families with incomes under 50% MFI. The three units to be refinanced are condominium units; they are one and two bedroom units. All three units are occupied at this time. The units are a PUD.

To the extent that two of the three units are currently occupied by individuals earning less than 80% of MFI, the units would be considered preserved affordable units. Attached you will find the information from the appropriate taxing authorities showing the year the units were built. Any of our units will be made available to the Housing Authority.

One unit is accessible for persons with mobility disabilities. The project is an existing project and as such is completely compatible with the area. These units are condominiums, which have found to that this method of ownership actually lower the cost of holding the units. All exterior maintenance is included. Items such as exterior paint, roofing, parking facilities, security, landscape, play grounds, pool, which tends to be some of the most expensive items in a project, are covered in the HOA payments.
